

Nothing happens until **someone sells something.**

You know the businesses that need better ERP, data, and AI solutions. Introduce them to us, and earn a share of every dollar of services they buy from us, for as long as they stay a customer.

Most referral programs pay you once. Ours pays you **every month we collect from the customer you referred, for the life of that relationship**. Your one introduction becomes a long-term, passive income stream.

What you earn

25%

First year

of collected services revenue from each customer you refer

15%

Every year after, for life

for as long as the customer keeps buying services from us

Commissions apply to consulting, support, training, and software development services. Third-party software licenses, pass-through costs, expenses, and taxes are not included. A referral must become a customer within 12 months of your introduction.

Why become a SACI affiliate?

1

Long-term revenue

Good customers stay for years. So does your commission. There's no cap and no expiration while they're a customer.

2

Passive income

You make the introduction. We do the selling, the delivery, the support, and the billing.

3

Lifetime of the relationship

You're paid for the life of the customer relationship, not just the first project.

How it works

1. Sign up

Complete the short form and accept the affiliate terms.

2. Introduce

3. We deliver

We earn their trust with great service at a fair price.

4. You get paid

Every month, by the 15th, on what we collected the month before.
